\$2.00 A YEAR IN ADVANCE

## CHAUTAUQUA HAS GOOD PROGRAMME

A meeting of the sponsors of the Carbon Chautauqua was held in the Municipal office on Thursday night last and a large number of the guarantors were present.

Mr. J. A. MacDonald occupied the chair and the following officers and committees were elected.

President, J. A. MacDonald.  
Vice-President, D. G. Code.  
Secretary, R. J. Fairbairn.  
Treasurer, H. N. Elliott

Advertising Committee: E. J. Rouleau, H. N. Elliott, P. Edwards and R. Wacker.

Tent Committee: J. Atkinson, Jas. Ramsay, Walter Hay.

Lighting: D. G. Code.

Ticket Committee: S. F. Torrance is the Convenor and the following is a list of the sub-committees—

Village: J. A. MacDonald, C. H. Nash and J. Gutman.

South-West—E. J. Ohlhauser, John Lelake, Jas. Gordon, H. Best, J. M. Ohlhauser, and J. Bradley.

South-East—Mrs. A. Neher, G. Ohlhauser, Ed. Harsch, Adam Ohlhauser and A. Hedstrom.

North-East—W. H. Levins, A. J. McLeod, H. N. McNaughton, R. D. Barnes and R. Barber.

North-West—J. Atkinson, L. B. Hart, S. N. Wright, W. G. Shell and Harry Braden.

The committee decided to give W. Leitch the contract for the erection of the tent, etc., the same as last year.

It was pointed out at this meeting that there would be no amusement tax on Chautauqua tickets this year and the ticket buyers will be able to save on this item.

Another important decision made was to open the gates one hour before the program commences and furthermore the executive committee is

## J. CONGO GOOD SCHOLAR AT OLDS SCHOOL AGRIC.

With the announcement of the examination results at the Olds School of Agriculture by F. S. Grisdale, it is noted that J. Congo of Carbon has headed the second year class in Agriculture. There were many successful students from other points in the surrounding districts who were successful in these examinations.

to appoint ushers who will reserve a section of the seats especially for the children.

Miss Swanson, the Chautauqua representative, who called the meeting, outlined the program for this year, which includes the usual variety of drama, music and lecture.

There are to be two plays presented, "Broken Dishes," a popular comedy, which is now playing on Broadway, and the well-known and beloved production, "Pollyanna."

The lecturers are Constance Neville-Johns, a delightful Australian lady, with her unique informal talk on "Under the Southern Cross," and Doctor Henry Black Burns, noted criminologist, who tells why and how we should "Stop, Look and Listen" to the trend of the times.

Music lovers will be delighted to know that the Petrie Quintette, who received such a welcome in all the Eastern cities of Canada last season, and a musical group consisting of the French Sisters, Fern Cassford, reader, and Joe Marks, concert violinist, are members of the talent for this year.

And—Boys and Girls—what do you think! The Martin-Erwin players are putting on a play specially for you—"Jack and the Beanstalk."

The tickets for the Chautauqua are now being sold by the various members of the committees and everyone is requested to get their tickets early. Tickets sell for \$2.50 for adults and \$1.00 for children. After the opening day the ticket price advances 50c.

## TEST WELL TO BE DRILLED FOR GAS

The first general meeting of the Carbon Exploration Company Limited, a company composed of Carbon and Calgary men, was held in the Elk's Hall, Carbon, on Monday night of this week. A. H. Jealous occupied the chair.

The first business of the meeting was the fixing of the number of directors for the company and a motion carried to the effect that seven directors be elected. In all there were ten directors nominated and in the election the following seven were chosen.

D. A. McCannell, Calgary; Wm. A. Keyes, Calgary; F. F. Reeve, Calgary; J. A. MacDonald, W. A. Braisher, S. N. Wright, W. G. Shell all of Carbon.

At the directors meeting immediately following the officers of the company were chosen as follows:

President, J. A. MacDonald of Carbon. Vice-President, Wm. A. Keyes of Calgary; Secretary, S. F. Torrance of Carbon.

Mr. McCannell outlined the work of the company so far and spoke on the possibilities of gas and oil in the field and Mr. Keyes also gave the meeting some idea of what to expect from the field.

It was decided at this meeting to commence operations almost immediately and a test hole will be put down within the next month or so to prove the gas field that is known to be here. This well will be started near the old well on the Pope ranch, that was drilled to a little over 300 feet about 20 years ago and in which a tremendous gas flow was encountered at that time, the drillers claiming that the gas flow extended in the air to some 35 feet. This well was filled in to prevent fire or other damage at the time, and it is expected that when this gas flow is struck that the proof of oil will be derived from tests that can be made.

The directors and shareholders of the Company were all of the opinion that work should be commenced immediately and little time will be lost before some equipment will be on the ground. A well drilling outfit will be used to commence the first test well.

## FAREWELL GIVEN FOR ROBT. SHAW IS WELL ATTENDED

The farewell given for Mr. Robert Shaw in the Elk's hall on Thursday night last, was attended by nearly everyone in the district and there was a crowd of over 300 people present on this occasion. The evening was spent mainly in dancing and a very delightful lunch was served at midnight. During the supper hour Mr. Shaw was given a presentation by his many friends in the district of a handsome smoking set.

Mr. Shaw is an Old Timer here, having come to Carbon just 26 years ago and he ranched on the land he has been farming of late years. He is a member of the U.F.A. and an active member in the Elk's Lodge. Mr. Shaw will be greatly missed in the community and its work, but we trust that he will better himself in his new undertaking in Calgary and extend the best of wishes to him.

## LITTLE ITEMS OF LOCAL INTEREST

Saturday, May 24th, is a Dominion holiday and all places of business will be closed in Canada.

Dennis Wilson of Calgary, was a visitor in Carbon for a couple of days last week, coming out on Thursday.

Wm. Edwards of the Bank of Montreal staff, left on Saturday for his annual vacation, which he will spend at various Alberta points.

Mrs. J. Rochester left on Saturday for Calgary to join her husband there.

Jas Ramsay and Steve Morran left Tuesday for the Peace River country.

## CIBA BASEBALL LEAGUE HAS BEEN FORMED

A Baseball league has been formed in this neighborhood, comprising the towns of Carbon, Irricana, Beiseker and Acme, to be known as the C I B A Baseball League and the schedule has been drawn up for the season. In this schedule it will be seen that each team will play six games in all, three at home and three at outside points. Cards have been issued with the schedule and if you are a baseball fan and want to keep track of the games as they are played, get in touch with the secretary or members of your baseball team and they will see that you are provided with a card.

The Carbon team is gradually getting into shape and we hope to see some real baseball games this summer.

The following is the 1930 schedule:

May 28—Carbon at Acme  
May 30—Beiseker at Irricana  
June 6—Acme at Beiseker  
June 11—Irricana at Carbon  
June 13—Beiseker at Acme  
June 18—Carbon at Beiseker  
June 20—Acme at Irricana  
June 25—Beiseker at Carbon  
June 27—Irricana at Beiseker  
July 4—Acme at Carbon  
July 16—Carbon at Irricana  
July 18—Irricana at Acme

## PREMIER BROWNLEE SPEAKS TO CROWD

Premier Brownlee visited Carbon on Tuesday afternoon of this week and spoke to a large crowd in the Elks hall.

Mr. Robert Shaw of Carbon acted as chairman of the meeting.

Mr. A. B. Claypool, U.F.A. candidate for this, the Didsbury Constituency, was present and addressed the meeting for a few minutes and then Mr. Brownlee took the platform.

The main topic of the Premier's address was the reasons for bringing on an election at this time. These were that the Province had recently gained control of the Natural Resources and many changes will have to be made in administering them, especially the employing of a number of men to look after the various departments coming under the head of the resources. Mr. Brownlee does not believe that anything could be accomplished in a few short months of this term, were it completed, and no matter what government is returned, they will have a full term in which to gain more knowledge of the work in hand and the

(Continued on back page)

## WE RECOMMEND

*Lowe Brothers*

## PAINTS & VARNISHES

They're made on a strictly scientific basis assuring the consumer of at least 300 square feet greater coverage per gallon than cheaper paint, due to the purity of ingredients used in the manufacture of "High Standard" Products. One Pint of "High Standard" Paint will go as far, wear longer, and look better than One Quart of cheap or inferior paint.

## Lowe Brothers Quick Drying Enamel DRIES IN FOUR HOURS

For Furniture, Floors, Walls, and 101 Articles About

the home where speed in drying is desired. Dries in from 4 to 6 hours to a beautiful gloss finish. Comes in a choice of 18 colors; is easily applied, and requires no special thinner. Prices on application.

## FOR WALLS AND CEILINGS

(Bedrooms—Kitchens and Bathrooms)

Lowe Brothers make a special product for interior walls in several modern tints. Lowe Brothers' Wall Paints are very economical and durable, and may be washed without damage to the surface. Ask for Color Card.

## FOR FLOORS OF ALL KINDS

Whether hardwood - soft wood - concrete or linoleum, we have the right finish in Lowe Brothers' Varnish - Floor Enamel - Varnish Stains or Quick Drying Products - in a wide range of colors. Consult us for best results and economy in your Paint and Painting Plans.

## VARNISHES AND VARNISH STAINS

For every conceivable purpose. No matter what the surface or what the finish desired, you will find a Lowe Brothers' Product to fit your needs. Color Cards and Prices gladly given on request.

## The Farm For The Farm Boy?

Every once in a while some pullman car philosopher comes along with a few suggestions on how to remedy the evils with which agriculture is supposed to be afflicted, and frequently winds up with a peroration containing some gratuitous advice to "keep the boy on the farm."

All of which might be all right if the itinerant solon were fully acquainted with the conditions of the country which he calmly surveys from the window, the conditions of the industry about which he descants so easily and freely, and the trend of the times, about which he may, or may not know anything. If, however, he were so well posted he would probably tell the newspaper reporters that he has "nothing to say on the subject today."

Now this question of "keeping the boy on the farm" is not a new one, and it has a good many angles to it, some of which are well worthy of a little reflection by the individual before he decides whether the boy should be kept on the farm, and if so, how to go about it.

The first question that naturally arises is: "Should the boy be kept on the farm?"

This query opens a great realm of speculative thought and examination long before the sequent answer: "How is it to be done?" can be satisfactorily dealt with.

It can be said at the outset, without fear of contradiction, that not all boys are fitted for life on the farm, physically or temperamentally, despite the fact that the farm affords an outlet for the expenditure of a wide range of talents. To try and bind such youths down to a life with the soil is akin to shipping a consignment of flannel vests and fur coats to the niggers of Equatorial Africa, and about as useful.

And what about agriculture itself? Does agriculture need, and can it offer suitable rewards and satisfaction to, all the boys who are born on the farms of Western Canada?

Here again is a question which has an important bearing on the problem of taking care of the future of the rural youth. Fifty years ago a single farmer could only raise enough produce to feed a handful of people. Today, with the use of highly mechanized and highly powered implements, one farmer can feed a host, and the trend in the direction of increasing the productive power of the individual in the realm of agriculture is neither recording a halt nor a swing in the other direction.

If science, combined with improved business management, is going to continue to widen the scope of the individual engaged in agricultural production, the time may come when a very considerable proportion of the lads reared on the land will have to look elsewhere for a vocation.

Then, even more than today, the question of determining the fitness, or otherwise, of the rural boy for bringing forth the fruits of the earth, will assume a greater importance. As has happened in other industries in the flux of time and change, those best adapted by nature and preparation to agriculture will be those who will stay with the industry, and they only. The others will find other fields more suited to their talents and inclinations.

If the foregoing diagnosis of the trend of the times is correct, it is very fortunate that the Western Canadian provinces have within their borders an infinite variety of resources awaiting the application of the initiative and courage bred in our youths, for their recovery and conversion to the services of mankind.

It is also fortunate that coincident with this tendency to reduce the man power on the farm, a marked development is taking place in industrial life in the west which, along with the development of the resources already referred to, will afford an ever widening outlet for the energies of young manhood.

Progress has always been marked by evolutionary changes of this kind. Usually they bring discomfort to some, but this is inevitable. It is useless to try to stem the forward march. The wise attitude is to try and discern what present day trends may bring in the future and take advantage of the opportunities they may afford.

These are questions which, no doubt, are receiving serious consideration by those responsible for the conduct of education in rural districts. The wise educationist is not content with taking things as they are for granted, but is looking to the future and making adjustments which the necessity of tomorrow may dictate.

**Can Supply Canada's Needs**  
An investigation made by the Canadian Government Department of Mines shows the sodium sulphate deposits in Saskatchewan containing over 100,000,000 tons of natural hydrous salt, enough to supply the Dominion's requirements and to furnish a surplus for export. One of the chief uses in Canada of this "salt cake" is in the production of sulphate or kraft pulp.

## Stunts Planned For This Year

### One Man Plans To Walk Across English Channel

It looks as if 1930 is going to distinguish itself as a year of amazing stunts.

Herewith are just a few of the things that carefree men and women are planning to do during the summer.

Fly an engineless glider across the Irish Sea from Holyhead to Dublin. Walk across the English Channel on water boots.

Cross Niagara in a miniature submarine.

Walk blindfold around the top of one of the tallest buildings in Britain.

A young airman, Mr. Alec B. Trafford, of Birmingham, is to attempt the dangerous feat of flying a glider across the Irish Sea. He has already had considerable experience in glider-flying in Germany, and is now at work on the machine with which he intends to make his big attempt.

The man who is hoping to cross the channel on water boots is Mr. J. Hazzard, who has invented an ingenious device consisting of a pair of ordinary shoes attached to the tops of two airtight bags, which he inflates with a bicycle pump. To help him in his 21-mile stroll across the waves he will use a pole attached to another inflated bag. He will obtain refreshment from a floating quick-lunch counter, to be established somewhere near mid-channel.—From Pearson's weekly.

## CRYING BABIES ARE SICKLY BABIES

The well child does not cry — it is only the sickly baby who cries. The well child is laughing and happy. Baby's cry of distress is his way of telling his mother or nurse that he is ill. Therefore, if your baby cries do not delay in looking for the trouble.

Baby's Own Tablets are a safe and efficient remedy for childhood ailments. They are a mild but thorough laxative which through their action on the stomach and bowels banish constipation and indigestion; break up colds and simple fevers and promote healthful sleep. They will make baby happy and keep him happy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Preparing Eggs For Storage

The new egg-candling and egg-processing plant at the Pacific Coast Terminals, Limited, is now in operation, preparing eggs for storage and candling them at the rate of 500 cases a day.

**For Scalds Or Burns.**—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

In early Saxon marriages, the father of the bride delivered one of her shoes to the bridegroom who touched her head with it as a symbol of his authority.

Miller's Worm Powders not only make the infantile system untenable for worms, but by their action on the stomach, liver and bowels, they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children thrive upon them and no matter what condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

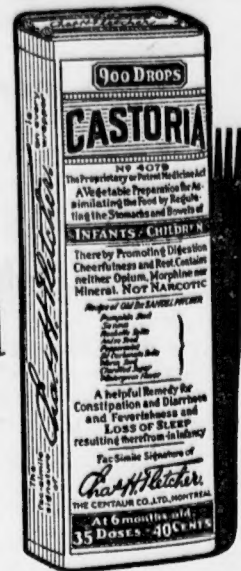

Mark Twain once said that there were two occasions in a man's life when he could not understand a woman—before he marries her and afterwards.

## First-Aid

For all pains and aches, foot troubles, cuts and bruises, or general massaging purposes, Minard's simply can't be beaten.

**MINARD'S**  
"KING OF PAIN"  
**LINIMENT**

# The upsets of Children

All children are subject to little upsets. They come at unexpected times. They seem twice as serious in the dead of night. But there's one form of comfort on which a mother can always rely; good old Castoria. This pure vegetable preparation can't harm the tiniest infant. Yet mild as it is, it soothes a restless, fretful baby like nothing else. Its quick relief soon sees the youngster comfortable once more, back to sleep. Even an attack of

colic, or diarrhea, yields to the soothing influence of Castoria.

Keep Castoria in mind, and keep a bottle in the house—always. Give a few drops to any child whose tongue is coated, or whose breath is bad. Continue with Castoria until the child is grown! Every drugstore has Castoria; the genuine has Chas. H. Fletcher's signature on the wrapper.

### A New Motor Disease

"Driver's heel" is the latest disease. Rough roads, requiring constant working of pedals and controls, are responsible for this trouble, which can be very painful. Doctors with patients suffering from the new ailment are recommending that heel mats of some soft material should be provided by motor manufacturers, particularly for racing cars.

In Baltimore, Ohio, there is a monument to Adam.

### Something New In Business

Renting overcoats has proved a successful business for a store at East Ham, London, England, during the recent chilly weather. The rate for use of the garments is the equivalent of four cents a day, and a small deposit is required. Many rent the garments for only one day.

The promissory note dates back to 2,100 years before the birth of Christ and was invented by the Babylonians.

# Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

## Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

## SENATE AGREES ON RESOURCES BILLS FOR WEST

Ottawa, Ont.—It is not the intention of the government to proceed with the financial reconstruction of the Canadian National Railways this year, Hon. T. A. Crerar, Minister of Railways, told the parliamentary committee which examined the estimates of the National system here. The government had proposed to introduce a bill dealing with the amalgamation of the various constituent companies, but no progress having been made previous to the Easter recess, it was doubtful if that bill would now be dealt with in view of the approaching dissolution of parliament.

"I frankly confess," said Mr. Crerar, "that, assuming my duties as Minister of Railways in February, I haven't been able to get a clear idea of what is involved beyond the fact that it is a tremendous task."

"I doubt if the amalgamation will now be proceeded with, but it should be done next session."

Sir Henry Thornton, president of the C.N.R., informed the committee that as far as the railway was concerned all the investigations had been made in connection with the financial reconstruction and the company's recommendations were ready. Mr. Crerar, however, had had no opportunity to enquire into what was an exceedingly complicated problem. The situation now was one of simply determining what the government wanted to do. The executives of the C.N.R. had submitted their recommendations this year.

The problem of financial reconstruction had been under intensive study for the past six years and he did not suppose that any more complicated task had ever been undertaken on account of the large number of records, mortgages, securities of different terms and rates of interest. These had all been finally catalogued and straightened out. It was now at the pleasure of the government and the will of parliament. The company itself was prepared to go ahead with the matter.

The re-financing scheme did not involve the disturbance of existing issues.

### Indian Flier Reaches England

Croydon, England.—The Parsee Indian flier, R. D. Tata, arrived by aeroplane alone from India, after a nine-day flight in an attempt to win a prize of 500 pounds sterling offered by the Aga Khan for the first solo flight by an Indian from India to England. The best times made by other contestants were 17 and 23 days, respectively.

### Pay Tribute To Explorer

Oslo, Norway.—Norway recently paid official tribute to Dr. Fridtjof Nansen, whose sudden death occurred May 13. The Storting, or legislature, held an extraordinary meeting at which President Hambro voiced the country's praise of the great explorer and humanitarian. The Storting's offer to pay the explorer's funeral costs was accepted by the Nansen family.

# WRIGLEY'S

Alertness scores everywhere.

Wrigley's creates pep and energy and keeps you alert.

W. N. U. 1838

## Chinese Stage Battle

Winnipeg Is Scene Of Riot Between Oriental Factors

Winnipeg, Man.—Axes and baseball bats were wielded in Winnipeg's Chinatown as two Oriental factions clashed in riotous street warfare. Three Chinese were so seriously injured that they were taken to hospital, while numerous others were being attended at their homes. Seven Orientals are under arrest.

Rioting broke out shortly after midnight with two-score members of opposing political factions milling in the fray which began when two Orientals engaged in combat. From stores and residences in the surrounding area, within a block or two of the city hall, poured Chinese armed with axes, sticks and baseball bats. Several were knocked unconscious in the mob-clash.

Police arrived while the riot was in full swing and the battlers dispersed within a few moments, leaving injured men on the road and in the gutter. Fleeing combatants were arrested and the more gravely hurt were hurried to hospital. Condition of the three wounded men was reported as showing improvement.

## Papers Resent Action Of Scotland Yard

Protest Against Method Employed In Reference To Leakage Of News

London, England.—In connection with the probe into the leakage of news from government sources connected with the arrest of Gandhi in India, the Newspaper Owners' Association has raised its powerful voice against certain sections of the Official Secrets Act of 1920, under which the detectives secured their warrants to invade the home and question the newspapermen. The association has adopted a resolution regretting the government action and calling it unjustified interrogation of a journalist who collected his news by a legitimate and open method. The resolution expresses concern for the freedom of the press and demands amendment of the act in the public interest. A copy of the resolution was forwarded to Prime Minister Ramsay MacDonald.

## Aviation Valuable To Canada

More Development Is Urged By Dr. W. R. Boyle

Saskatoon.—That Canada will gain more by the development of the aeroplane and radio than any other country in the world, was the statement issued by Dr. R. W. Boyle, principal of the physical science division of the new national research laboratories at Ottawa.

He emphasized the value of the aeroplane and radio in bringing together certain parts of our country, which with its wide stretches of unoccupied territory would remain isolated and inaccessible without the aid of these two developments of science. Dr. Boyle said that particular attention was being paid to aeronautics at the research department at Ottawa.

## Will Holiday In Europe

Successful Western Farmers Going Back For Short Time

Toronto, Ont.—Fifty-five farmers, mostly from Alberta, and made up of Ukrainians, Finns and Central Europeans, have arrived here on their way to Europe. Travelling in ten automobiles, men, women and children, some of the latter barely remembering the land of their birth, are going back for a holiday tour after successfully establishing themselves on the land in Canada.

Starting from Edmonton, the party motored over a route carrying them through parts of the United States then crossing again.

### For Scott Centenary

London, England.—An appeal to Scotsmen throughout the world to subscribe five thousand pounds sterling (nearly \$25,000), towards a suitable and dignified way of commemorating the centenary on September 21, 1932, of Sir Walter Scott, the great novelist, has been issued by the Duke of Buccleuch, president of the centenary committee.

## NEW HIGH COMMISSIONER

Hon. Vincent Massey, envoy to Washington, who has been named to succeed the late P. C. Larkin, as high commissioner for Canada in London.

## Workers' Bill For Debate

Measure Has Been Refused To House Of Commons

Ottawa, Ont.—A measure respecting employment of Canadian workmen on Dominion Government contracts was referred in the House of Commons to the committee on industrial and international relations.

The sponsor of the bill, Dr. J. J. E. Guerin, (Liberal, St. Ann), informed the House that the measure was of serious interest to labor, especially in the City of Montreal. In brief the purpose of the bill, he proceeded, was to provide that there should be no age limit in respect to Canadian workmen seeking employment on government contracts.

### Would Not Use Old Law

Paris, France.—With a view to making France unhealthy for loafers and petty criminals, a bill has been introduced in the chamber which invokes a law of 1885 to the extent of imposing the choice between expulsion and permanent confinement at hard labor for any person who, having already spent at least six months in prison, shall have been convicted a second time.

### Postmasters Organize

Kamloops, B.C.—Dominion-wide organization of postmasters was completed here when the convention of British Columbia postmasters decided to join the other provinces. W. A. Wylie, of Kamloops, was appointed temporary chairman of the provincial branch.

## HER MAJESTY THE QUEEN AND HER GRANDDAUGHTER

Queen Mary and the members of the royal family have been once again brought strikingly into the spotlight of public esteem by the biography of her majesty by Charlotte Cavendish, recently published in London. Photographs above of her majesty and Princess Elizabeth, granddaughter of the Queen, are by Marcus Adams, of London, England, and are reproduced here through courtesy of Toronto members of the Photographers of America.

## Survey Of Natural Resources In B.C.

Information Is Being Sought On Peace River Block

Victoria, B.C.—Under an agreement between the British Columbia government and the Canadian government, the Canadian National Railways and the Canadian Pacific Railway, announced by Premier S. F. Tolmie, a systematic natural resources survey of the Peace River Block will be launched almost immediately and carried on all summer.

The survey organization under Major C. R. Crysedale, which conducted the Pacific Great Eastern Railway survey of last summer, will handle the Peace River block investigation also.

The government and the two railways will share the cost of the work jointly as before.

"We need this information on the Peace River block before we can intelligently deal with the future of this great area of about 3,000,000 acres," the premier announced.

## Britain Has Refused Demands Of Arabs

Delegates From Palestine Told Proposals Were Unacceptable

London, England.—The British colonial office issued a statement declaring that the demands of the Palestine Arab delegation, which has been in London discussing the future of their fellow-countrymen, for constitutional changes were "wholly unacceptable."

At the same time the Arab delegation, which recently declared it had reached a deadlock in the negotiations, announced it would leave for Palestine on May 23.

The colonial office statement said the government had taken note of the Arab demands but had told the delegation its proposals could not be accepted "since they render it impossible for His Majesty's government to carry out their obligations under the mandate."

### Fine Pedigreed Stock

Winnipeg, Man.—Considered by Professor W. L. Carlyle, manager of the Prince of Wales ranch at High River, Alberta, the finest shipment ever brought to Canada, 70 head of pedigreed stock moved through Winnipeg recently over Canadian Pacific lines. His Honor, Lieutenant-Governor J. D. McGregor, and many others interested visited the through freight to look over the livestock.

## RECONSTRUCTION OF C. N. R. WILL BE POSTPONED

Ottawa, Ont.—Without a division and with very little debate the Senate gave three readings each to the bills restoring the natural resources of Manitoba, Saskatchewan and Alberta to those provinces. They previously had been passed through the House of Commons as government measures.

Hon. N. A. Belcourt, acting government leader, in supporting the bills, said the provinces had been dealt with generously and fairly. It had been the government's desire to grant the provinces as wide power as possible and he was impressed with the spirit that animated the proceedings leading to the agreements.

Hon. W. B. Willoughby, Conservative leader, said the natural resources had been an acute question in the west for years, but he believed it had been settled satisfactorily. He referred to the fact that Alberta and Saskatchewan had been given the right to appeal to the courts on constitutional issues. The Manitoba Act, he pointed out, had been passed on by the Privy Council, but neither of the others had been interpreted judicially.

Hon. A. B. Gillis reviewed the past history of the natural resources question in the west. Withholding of the resources under the 1905 incorporations had been disastrous to the provinces, and the present settlement was a complete justification of the stand taken by Sir Frederick Haultain when premier of the Northwest Territories. The provinces, he said, had been forced into direct taxation, and Saskatchewan alone now has a debt of \$70,000,000. If the resources had been given to the province in 1905, the sale of land would have offset the present debt.

## Will Hold Opium Conference

League Of Nations Council To Meet In December

Geneva, Switzerland.—Measures for strengthening the forces fighting the illicit opium traffic by calling up help from the "victim" countries were taken by the council of the League of Nations.

The council tentatively set December 1 for holding an international opium conference at which the chief matter for consideration will be a proposal to limit the world manufacture of narcotics to the world's medical and scientific needs.

### To Broadcast Story

Montreal.—The complete story of the approach of the R-100 to Canadian shores, her passage overland to Montreal and her attachment to the mooring mast at St. Hubert airport, as well as the reception ceremonies, will be simultaneously broadcast by 20 cities in Canada.

## What About Your Dairy Pails?

SMP Dairy Pails are made of special quality tin with bright polish. There's weight to SMP Dairy Pails . . . Strength to do years of good, honest work. 100% sanitary . . . Easy to keep clean. Look for the SMP label of Quality. 90c. to \$2.85.

## DAIRY PAILS

## Progress Of Canada As Seen Through Eyes Of Writer In New York Times

Arthur Elliot Sproule, writing in the New York Times says: "True though it be that we are all undoubtedly getting more and more 'internationally minded,' yet the job is so enormous that, for most of us, only the very biggest foreign events seem able to catch our attention—great things like the naval conference in London and the Soviet attitude toward religion, for example."

So true is this that—possibly because our mental eyes get a trifle out of focus by looking at distant objects—we are often startled to find how little we are seeing of events that lie under our very noses, as it were.

Take Canada, for example. What do most of us know of this great and growing nation that stretches at our very doors. Its progress fully merits the word "astounding," and yet few Americans know anything about it. For instance:

The port of Halifax has increased its tonnage by 40 per cent. in twelve months. The port of St. John, ranking after Montreal and Vancouver in the amount of traffic handled, but first among Canada's winter ports, has the largest dry dock in the world. Moving west, Quebec produces 85 per cent. of the world's supply of asbestos. Water-power projects are being successfully brought into operation, and other great and far-reaching changes have taken place.

Suppose you were asked to name the greatest port on the Atlantic Coast, after New York—would you immediately answer "Montreal"? Yet it is a fact that the harbor of Montreal, 1,000 miles from the sea, is the second port on the North American Continent, New York only being greater. At Sault Ste. Marie the canals carry more traffic than the Suez, Panama and Manchester Ship canals combined.

Winnipeg, the centre of the wheat country, has taken on added importance as the headquarters of a new mineral area, and it may well be that in the future the mineral products of the Province of Manitoba will vie for supremacy with the Province's enormous grain resources.

Further west again, Turner Valley, Alberta, has drawn the attention of the world to its potentialities as an oil producer.

On the Pacific Coast, Canada possesses vast wealth, notably in her lumber resources, and there are vast gold mines in the mountains.

Passing to world trade, observe that Canada leads all other nations in the production of newsprint, nickel, asbestos and cobalt. She takes second place in the production of wheat and automobiles, and third place in the output of lead and gold. As an exporter she stands sixth among the nations of the world.

According to recently issued trade statistics for the year 1929, Canada holds fifth place in aggregate import and export trade, second place in export and total trade per capita, third place in favorable trade balance, and second place in favorable trade balance per capita.

There is no need to be wearisome, but it is surely well to face even a few salient facts such as the foregoing. We have quite a neighbor up north!

Wonder will this reformed calendar they're talking about, be so fixed that a fellow won't get his tax bill just when he's saved up enough money to have the house painted?

"Is your dog of pure breed?"  
Wine Merchant: "Of course. Do you think I have poured water into him?"—Pages Gales, Yverdon.

W. N. U. 1838

## Colorado Grain Growers Coming To Exhibition

Will Be Well Represented When 1932 Show Opens

The growers of San Luis Valley, Colorado, U.S.A., will be well represented at the World's Grain Exhibition, at Regina, 1932, according to reported activities of the Farm Bureau Federation. Among other plans for the improvement of crops the bureau will give special attention to weed control, the securing of pure seed and the "preparation of a valley-wide exhibit at the World's Seed Show, Regina, Canada, in 1932."

The States of Montana will also be represented according to a letter received at exhibition headquarters from A. H. Stafford, commissioner, Department of Agriculture. Mr. Stafford says, "It is the plan of this department to prepare and exhibit grain at your conference in 1932. Will you kindly forward to us at this time detailed instructions as to the requirements for establishing such relations with you."

## Preparing To Ship Fish By Airplane

Commercial Air Lines Around Great Lakes Will Speed Up Transportation

Other than flying fish will soon take to the air in changing their habitat from the Great Lakes to American cities.

Commercial air lines around the Great Lakes, both in Canada and the United States, are preparing to transport whitefish, pickerel and other edible varieties of fish, from the shores of the Great Lakes to the railhead for quick shipment.

It is said that the movement of fish from inland lakes to railway contact by air has been successfully and economically accomplished in other localities and since the greatest industry of the great northwest is fishing, this outcome is anticipated.

## Huge Bridge Nearing Completion

The bridge over the harbor at Sydney, Australia, is nearing completion. The structure, costing \$20,000,000, has a span of 1,650 feet, and accommodates a roadway 57 feet wide, four electric tracks and two ten-foot footways. It is estimated that changes in temperature will cause a maximum expansion of 14 inches. The bridge is the world's largest of its type.

"There, now," said the suburbanite to his wife, "you've ordered flower seeds that take two years to bloom."

"Well, that's where you're all wrong," she said. "This is last year's catalogue."

(By Eva A. Tingey)

## PRETTY HOUSEWEAR

All Tingey models are created in Paris and sketched by her there. The patterns are made and adapted for American women in New York by American patternmakers.

Fashion seldom wavers in her affection for spots. They have so fresh and trim an effect. They are chic, too, and add an air of charm to the simplest of models.

White spots on a blue ground were chosen for this attractive housefrock. The trims were white. The neck line merging into two front pieces on the bodice has a very slimming effect, which is helped still further by the point on the skirt. Slight shaping of the lower skirt section gives grace and free movement.

Other schemes besides spots could, of course, be used for this model. Plaids, checks, stripes and flowered patterns with contrasting trims would all be good. Almost all standard washing cottons are suitable. Washing silks and rayons can also be used.

This pattern may be obtained in sizes 16 to 20 and 34 to 42. It is ready for immediate delivery. It is hand cut.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Foreman—"Well, everything all right?"

Night Watchman—"Yes, I have not done so bad for the first night. I've checked everything off, and there's only one thing missing—the steam roller."

## Canadian Forest Growth Could Be Stimulated By Scientific Management

### Convenience In the Poultry House

Work Should Be Made As Easy As Possible

When building a poultry house it is a matter of importance to see to it that it is not only located at a point easy to reach, but also that it shall be so arranged that the work of attending to the birds be made as easy as possible. The more convenient it is to do the work about the poultry house the surer it is that it will be done.

As the women of the farm usually look after the poultry, the work should be made as easy as possible. If the distance to be covered in going back and forth to the poultry house is twice as far as it need be the amount of extra walking thus involved may have the effect of adding drudgery to the task. The new bulletin No. 132, of the Department of Agriculture, at Ottawa, "Poultry House Construction," goes fully into the question of planning, and makes the observation that not only should the house be accessible, but the internal arrangement ought to be such that the work may be done with the least amount of labor. Among other suggested conveniences is the gate that swings both ways. The feeder may be carrying two pails of water or feed, a gate that swings either way may be opened without stopping to set down the pails. A barrow load of gravel, or the laying of a plank will enable one to pass over a wet place dry-shod.

Another recommendation is the providing of a feed box in which supplies may be kept close to where they are needed. In poultry keeping, as in other farm work, labor is an important item, and in the building and equipping of a poultry house every consideration should be given to means that may be taken to reduce labor.

### Land In Good Shape

Irrigated Area In Southern Alberta In Fine Condition

Irrigation carried out during 1929 was the biggest in the history of Southern Alberta, and as a consequence the land is in fine condition now, according to P. J. Jennings, supervisor of irrigation in the Calgary district office of the Dominion Water Power and Reclamation Branch. "Without exception, all the large irrigation projects in Southern Alberta used large quantities of water last fall," he said, "and in consequence their irrigated lands were in good condition this spring."

"The spelling books of fifty years ago were the best," writes an old-timer to the Toronto Globe. "The young folks of today don't know how to spell."

An estimate of the total forest production of Canada for 1928 has just been completed by the forest products branch of the Dominion Bureau of Statistics. The estimate includes all the products of operations in the woods, the unmanufactured materials cut in Canadian forests during the year.

An estimate has also been made of the extent to which the forests are being depleted annually in the process of exploiting these materials. For this purpose converting factors based on actual measurements have been used. Each of these factors represents in cubic feet the quantity of standing timber that must be cut in the forest in order to produce one unit of the material in question, based on the total cubic contents of the tree. By the use of these factors it has been estimated that the total forest production of 1928 involved the cutting of 2,988,038,430 cubic feet of standing timber. This constitutes only the annual depletion for use and to it must be added the volume of material annually destroyed by fire, which exceeds 900,000,000 cubic feet of merchantable timber and young growth on 1,200,000 acres. Insects and fungi destroy annually at least 800,000,000 cubic feet to the annual drain on the forest resources of considerably more than 4,788,000,000 cubic feet.

A total depletion of 4,788,000,000 cubic feet per annum does not necessarily imply that the total resources are reduced by that amount every year and the supply will therefore be exhausted in forty-seven years. Estimating the probable duration of supply of forest products is not a matter of simple arithmetic. The rate of utilization is far from constant. It tends to increase with the discovery of new uses for wood, the increase in population and the increase in the demand for forest products from other countries whose supplies have been reduced to a greater extent than Canada's.

On the other hand, there is a steady increase in volume taking place in all healthy stands of timber due to annual growth. By the application of scientific forest management this annual growth can be stimulated and could be made to take place over the entire area of potential forest land, it is believed.

### Filling Large Order

Vancouver Lumber Mills Working Overtime To Produce Shingles

Lumber mills in Vancouver are working night and day on the production of 400,000 giant red cedar shingles to cover the 151,000 square feet of roof on the Log Lodge Hotel at Lucerne-in-Quebec. The order, placed by the Lucerne-in-Quebec Community Association, Limited, with Alexander Murray Limited of Montreal, is said to be the largest single purchase of hand split shingles in the history of the lumber industry.

### Feed As They Go

Many of the birds that migrate by day travel slowly and feed as they go along. The cliff swallow is said to average twenty-five miles a day for the first twenty days of its two thousand, five hundred mile flight from winter to summer home, and increases this to sixty miles a day at the end of the journey, doubtless feeding to a greater extent during the early stages of the trip.

"The doctor told me that people either die of my complaint or become idiots."  
"Doctors don't always know. You have not died."—Pages Gales, Yverdon.

## PRESS DELEGATES FROM "DOWN UNDER"

Members of the New Zealand delegation to the fourth Imperial Press Conference, to be held in London, England, in June, are shown photographed in Victoria, B.C., with members of the City Council, who tendered an official welcome to them. In the centre of the front row is Mayor Anscombe, who officiated at the civic luncheon in honor of the visitors, who were also entertained to dinner by the Government of British Columbia, with Premier Tolmie presiding. The New Zealanders are crossing Canada by Canadian Pacific lines and will sail from Montreal on the "Duchess of Bedford," on May 16.

## WANT ACTION ON UNEMPLOYMENT SITUATION HERE

Ottawa.—A letter to Premier MacKenzie King urging that he call "a conference of financial, industrial and labor leaders throughout Canada" has been sent by A. R. Mosher, president of the All-Canadian Congress of Labor, and the Canadian Brotherhood of Railway Employees. In a statement issued recently, Mr. Mosher referred to a conference held in Winnipeg between representatives of provincial and municipal governments and organized labor for the purpose of dealing with the unemployment situation.

Mr. Mosher stated that in his letter to Premier King, he called attention to the fact, that, from the time it was ascertained that the wheat crop would be a partial failure, the railways had made immense reductions in staff, and their example was being followed by other industries which were similarly affected with the result that buying power had been considerably diminished. A widespread business depression was threatened.

Seasonal unemployment had appeared at an unusually early period, and the stock market collapse had, in his opinion, exerted an adverse effect fully as great in proportion to population in Canada as in the United States.

It was of the utmost importance, Mr. Mosher's letter stated, that public confidence should be restored by a survey of business conditions, and that plans be drawn up for the provision of employment; and the fear that it would spread to great proportions had curtailed public expenditure, creating a vicious circle which might work extreme havoc in Canadian industry.

The Winnipeg conference brought out the fact, Mr. Mosher contended, that unemployment in the west was greater than at any period in the previous five years, and regretted the attitude of the federal government, which apparently had municipal authorities to deal with. Mr. Mosher took the ground that in a time of crisis, technicalities of jurisdiction should not prevent the rallying of the constructive forces of the country, and that the Federal Government alone could give the leadership which the situation demands.

### Hunter Found By Indians

Was In Starving Condition After Wandering For Five Days

Meadow Lake, Sask.—Lost in the woods and without food for five days, C. L. Galbraith, druggist, of Edam, Sask., has been found by Indian trappers who combed the heavily treed country near where Galbraith had been hunting. He was exhausted and in a starving condition.

Galbraith, who is about 32 years of age, went shooting with Arthur Rister and George Paradis, also of Edam. He left camp alone to look for moose and failed to show up at dark. He had taken only a small lunch as a noon meal.

His companions, failing to find Galbraith themselves, sent word to MacKwa, near here, that the druggist was missing and search parties consisting chiefly of Indian trappers, were organized.

### Lord Byng Recovering

London, England.—A bulletin issued at Lord Byng's home, says although he is much debilitated by his recent illness, his doctors are satisfied with his progress and hope he will be able to sail for South Africa on December 20. His physicians anticipate he will ultimately recover completely from the congestion of his lungs.

### Receives German General

London, England.—The Prince of Wales received General Von Lettow Vorbeck, commander of German forces in East Africa during the Great War. General Von Vorbeck came to London especially to dine with General Smuts, the British commander, at a dinner given the East African veterans on December 2.

England's first girl traffic officer, who has started her duties on the Portsmouth road, is 23 years old.

W. N. U. 1815

## Six Perish In Fire

Father and Five Children Unable To Escape From Burning Home

Alfred, Ont.—Paul Baptiste Sauve, and five of his children, ranging in age from 2 to 10 years, were burned to death when fire swept their farm home here. Mrs. Sauve, with her infant daughter and oldest son, Paul, aged 12, escaped by jumping from the second storey as the flames roared through the frame house.

Unable to save her husband and the other children, whose escape had been cut off, the frantic mother threw her one-month-old baby out of the window on to the pillowy snow outside and then jumped for her own life. Both her legs were broken in the leap and these painful injuries, along with the resultant shock may result in her death, it is feared.

With Paul carrying the baby, she had crawled over the snow-covered ground in her night attire to a barn nearby, where she was later found in a state verging on collapse by neighbors.

When the neighbors arrived the house was a veritable furnace and it was an impossibility for anyone to attempt an entrance.

## Work Ceases For Winter

Handful Of Men Will Stay At Churchill Until Spring

Winnipeg.—Where hundreds of men have toiled during the summer months, planning and building at Canada's newest ocean port, Churchill, 1,000 miles north of Winnipeg, all is now silent.

The "King of Churchill"—George Kidd, resident engineer of the department of railways—his retinue and builders, have departed, and only a few hardy pioneers remain to face what is hoped will be the last winter of "isolation" for the port of Churchill.

The "Muskeg Special," the famous north country passenger train of the Hudson Bay Railway, which has Churchill for its terminus, left the port for The Pas, December 2, on its last journey of the season.

From now on—except for the arrival of an occasional mail by dog team from Mile 327—Churchill is shut off from civilization until the builders return in the spring. Next year it is hoped, all winter service will be maintained on the Hudson Bay line.

## May Request Salary Increase

Government Likely To Be Approached By Civil Servants

Ottawa.—Indication that the Dominion Government will soon be requested to grant all classes of civil servants a flat salary increase of \$180 is contained in the annual message of President Vernon L. Lawson, of the Ottawa Civil Service Association as published in that current issue of the Civil Service News.

The request which the association is expected to make would entail the balance of the \$300 increase sought in 1927. At that time a flat salary boost of \$120 was sanctioned by the government.

## Movie Of Premier's Visit

Ramsay MacDonald Shows Cabinet How He Was Received In Canada

London, England.—Premier Ramsay MacDonald, at a private film party, let his cabinet, several diplomats and 150 friends see himself as he appeared in Canada and the United States during his recent visit.

News reel extracts of his tour with talking accompaniments gave the prime minister's colleagues an idea of the warm welcome he received. Cabinet members derived considerable entertainment during the showing when it was demonstrated how movie operators had to tell the government leaders how to stand, where to walk, when to talk and sometimes what to say.

### Valuable Foxes Stolen

Fredericton, N.B.—A theory that an organized body of fox thieves is operating in the province and also in Prince Edward Island, appeared to be borne out when James Duncan, caretaker of the Roland J. Murray Fox Ranch, on the old Springfield road, discovered that a large number of valuable foxes had been stolen from the ranch during the night, the animals being killed on the premises and the carcasses taken away by automobile.

## RECEIVES RECOGNITION

John J. Page, recently appointed manager of the Western Canada Flour Mills, who has been honored by the president of the Czechoslovakian Republic with the Order of the White Lion, officer class, "for civic merits."

## Predicts Higher Price For Wheat

Indicated By Figures Given As To World's Supply

Toronto.—In a special dispatch from Winnipeg, the Mail and Empire reports George McIvor, general sales manager of the Canadian Wheat Pool, as disclosing a difference of 62,000,000 bushels between the world's export surplus of wheat and the import requirements. The available surplus for export is estimated at 708,000,000 bushels and the import requirements at 770,000,000. The dispatch says:

"The difference must be made up out of the normal carry-over, representing the wheat usually held over after domestic requirements have been met. The exhaustion of present world surplus outside of Canada would still leave a balance for export from Canada of 286,000,000 bushels whereas only 224,000,000 bushels are available in Canada for export, according to the figures."

The inference is that if the figures are even reasonably correct Canadian wheat is due for a pronounced bull market before the end of the year.

## Foresees Peace Conference

Sir George Foster Believes Religious Leaders Will Meet In 1931

Ottawa, Ont.—The holding in 1931 of a conference of religious leaders embracing every known faith for the purpose of formulating a plan for the maintenance of world peace, is foreseen by Sir George Foster. Philanthropic organizations are also becoming organized throughout the world with this idea in view, he said, in addressing the Ottawa Women's Canadian Club.

Sir George did not enlarge on the reasons for his prophetic utterance. If held, such a conference would most certainly influence a multitude of people, he said.

## Fighting To Keep Soo Channel Open

So Grain Vessels May Be Able To Reach Ports

Sault Ste. Marie, Ont.—A fight to keep the channel below Sault Ste. Marie open is being made by four tugs of the Thompson Towing and Wrecking Company of the Michigan Sault, so that some 45 freighters still in the upper chamber of the lake, downbound with last cargoes of grain, can reach their ports before the icy hand of winter closes the neck of the bottle which from year to year is a menace to mariners both up and down bound.

The fight has been a strenuous one so far, and at the end of the recent big storm it was feared the ice king had won. Twelve below zero weather, a record for 42 years, formed ice ten inches thick below the Sault and the drifting ice and slush packed up the rock cuts and narrow channels until it was 10 to 15 feet deep in places. But the tugs got through and released some 30 freighters. The safety gap is slowly but surely narrowing, due to freezing weather. Traffic through the canals is now all downbound, the vessels which have already gone down within the past few days with grain being stored on carriers and will not return for another cargo.

## Note Surprises U.S.

Russian Reply To United States Over China Situation Causes Amusement

Washington, D.C.—Awaiting receipt of the Russian memorandum in reply to United States efforts to prevent warfare between the Soviet Union and China, forwarded through French diplomatic channels, government officials studied the text of the communication transmitted by press correspondents and informally expressed complete surprise and amazement at the severity of its tone and the harshness with which it criticized the action of the United States in calling attention to commitments under the Briand-Kellogg treaty for the renunciation of war.

President Hoover and Secretary Stimson were informed of the Russian response of the peace proposals, but together with other high officers of the administration declined to comment.

Subordinate officers of the Senate department, however, were not hesitant about speaking their opinion of the new turn in the Sino-Russian situation.

### Canadian Muskrats For Russia

Montreal.—A shipment of 10,000 pairs of muskrats from Canada to Russia by Canadian Pacific express and steamship sets a new world record in the history of the fur trade. The muskrats will go forward in January and are being shipped by the Ingoldsby Fur Farms, Ltd., of Linden, Ont., to the Russian Government by way of Danzig, and are valued at \$250,000.

## LORDS VOTE AGAINST SOVIET AGREEMENT

London, England.—Lord Birkenhead had the personal satisfaction of defeating the Laborite government 43 to 21 in the House of Lords, on a motion that he introduced "That diplomatic recognition of the Soviet Government is not desirable."

Neither the debate nor the vote, however, is expected to have any effect on the government's announced plan of resuming full relations with Russia.

Lord Birkenhead called attention to the alleged Soviet revolutionary propaganda including "a hideous attempt to provoke a native insurrection in South Africa."

After Lord Birkenhead had supported his argument by citing the American policy, Lord Parmoor declared that while it was true the United States did not have diplomatic relations with Russia, there was a very important American mission in Moscow and Russian mission in Washington.

Lord Thomson, air secretary, replying for the government, said the government policy could be stated simply and definitely as follows: "It is to resume normal diplomatic relations with the least possible delay and at the same time to safeguard British interests throughout the world. The reasons for the step are in the first place to do everything possible towards the maintenance of world peace, and secondly, because the government wanted to expand British trade."

## Will Purchase Legation

American Legation Building To Be Provided At Ottawa

Washington.—Congress has authorized purchase or construction of an American Legation building in Ottawa as part of the program to place all American diplomats serving abroad in government-owned buildings.

Chairman Stephen G. Porter, of the House Foreign Affairs Committee, has visited Ottawa in connection with this project and selected for purchase by the United States, a home and surrounding estate which probably will not be for sale for several years but eventually will come on the market.

William Phillips, who recently resigned as American minister to Canada, frequently complained to friends against housing conditions to which he and his family were subjected in the Canadian capital. Lack of what he considered a suitable home contributed to Phillips' resignation, his friends said here.

## Makes New Record

Saskatchewan-Owned Cow May Top All Yields This Year

Toronto.—By her production of more than 15 tons of milk in a year, Canary Kornkyde Alcartra, a Saskatchewan-owned Holstein cow, has established a record that bids fair to top all yields in Canada for 1929.

According to figures given out by the Holstein-Friesian Association of Canada, this cow produced in the 365-day division of the record performance 30,801 pounds of milk and 1,336.25 pounds of butter, with an average of 3.47 per cent. fat.

This cow was bred by Ferd V. Heeney, Ingersoll, Ont., and sold as a yearling to S. G. Sims, Winnipeg, who in turn transferred her to B. H. Thomson, Moose Jaw, under whose supervision and management all the above records have been made. Last year, however, after finishing her world's record, she was purchased by the Saskatchewan Government for \$10,000.

### Re-Open Empress Hotel

Winnipeg.—The official opening of the enlarged Empress Hotel, at Victoria, B.C., to which a huge addition has recently been completed at a cost of approximately \$3,000,000, will be held on Saturday, December 21, it is announced by H. F. Mathews, general manager of western Canadian Pacific hotels. The opening, with its attendant social functions, will be forwarded on Sunday by the first concert of the Yuletide Festival being held this Christmas at the Empress.

## Fair Life Boat Experts

Which is the leach and which is the luff of a sail? Where does the tack of a standing lug make fast? What is the loom of an oar? These and a hundred other questions that are baffling conundrums to the layman are child's play to the seven bonny stewardesses of the Canadian Pacific liner "Duchess of York," who recently obtained the British Board of Trade Certificate for Lifeboat Efficiency. They are left to right: Mrs. G. Riley, Miss J. Johnson, Mrs. A. Caldwell, Miss C. Pendleton, Mrs. A. Silk, Miss A. Rowan, and Mrs. G. Lavender. The examination for the Board of Trade Certificate is the most exacting test of its kind, and requires an intensive practical knowledge of regulations regarding boat and fire drill, fire-prevention, rocket-apparatus, breeches-buoy, and artificial respiration from drowning and smoke asphyxiation.

## LOCAL NEWS

D. G. Code, W. A. Braisher and F. J. Bessant, D.D.G.M., paid an official visit to the Drumheller Masonic Lodge on Tuesday evening.

On June 1st, 1930 there will be no regular service in any of the three preaching places of the Carbon United Congregation, but Sunday School will be conducted as usual in all three.

WANTED—Sheep shearing. For further particulars apply to J. Tabert.

Mr. Frank Barker was a visitor to Calgary on Monday and returned the same day.

A terrible dust storm visited the district on Tuesday afternoon. Following the storm the weather turned cold and cloudy and it is hoped that a good rain will be had before the weather clears up.

A. B. Claypool of Swallow, U. F. A. candidate in the Didsbury constituency, was a Carbon visitor on Tuesday for the public meeting by Premier Brownlee.

Are you saving your money to buy your Chautauqua ticket? You'll be sorry if you don't.

The last performance of the play, "Safety First," was staged to a good audience in the Elks Hall on Friday night last and as a result the coffers of the baseball, tennis and golf clubs have been enriched. The play went over well and was followed by a dance, music for which was supplied by the DeForrest Orchestra of Drumheller with Mrs. Barr at the piano.

Next Sunday evening, May 25, 1930, the following subject will be discussed in the Carbon United Church: "The Scourge of Religion in Russia—Soviet Persecution, a revolt against false supernaturalism. How far is it justified? Ought we to pray to have it stopped?"

Dance lovers will be given an opportunity of enjoying themselves at the Red Cross dance to be held in the Elks Hall on May 28th. There will be dances for old and young and a real good orchestra has been engaged.

The sponsors appeal to the people of the town and country to help make this dance a financial success as well as a social attraction. All monies will be given to the Calgary branch of the Junior Red Cross.

## WHEAT POOL MEETING

(Received too late for last issue)

A Wheat Pool meeting was held at the Gamble school on Wednesday evening, May 7th, and a large crowd was present. The speakers of the evening were Mr. Pettinger of the Field Service staff, and Mr. Kachels, delegate for Sub-District C-9.

This was the first visit to this district by Mr. Kachels and by the able manner in which he spoke, he seems to be the right man for the job.

Mr. Pettinger, who has been to the Carbon district before on behalf of the Pool, answered all questions put to him, very satisfactorily, especially those dealing with the Pool's Sales Department in Europe.

There were a number of very interesting lantern slides, showing peasant life in the Argentine and also how the Pool Wheat was handled after it left the farm. These slides, along with Mr. Pettinger's address, filled a very entertaining and educational evening for those present.

A vote of confidence in the Pool and its officials was unanimously passed, and a vote of thanks was given to the speakers.

The indignant lady had just recognized the street beggar she habitually patronized. He was climbing into an expensive automobile.

"What," she gasped. "You own this! And beg?"

"Yes lady," he admitted. "It's the only way I can keep it up."

## FLAT TIRES

As our party skimmed past in a Flying Cloud, we felt sorry for the man by the side of the road with a flat tire, who was losing so much time and temper. Farther on we passed another signal of distress, whose machine was running with missing cylinders. We felt glad that our auto was filled with the capacity for work, that our brakes were holding, and that there were no worn out parts liable to play out through sheer exhaustion. The engine was purring happily, for it had been fuelled with the best there was. Taking all things into con-

sideration, it looked as if we were enjoying life to the full that fine day when all above was blue and gold and all around was green and fragrant.

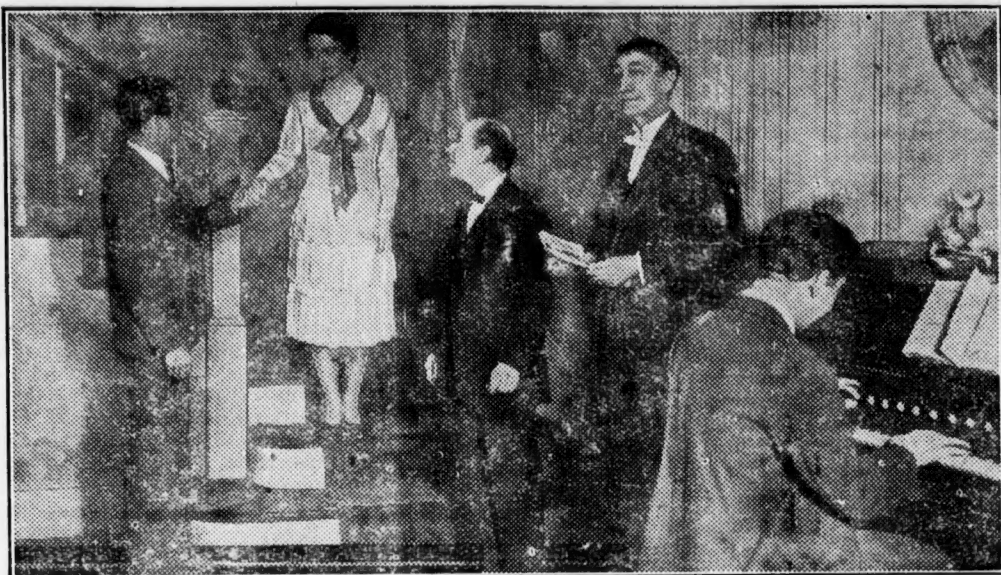

It was the doctor at the wheel who looked serious for a moment as we drove past a large plantation where there were many lovely trees and the children playing in the shade. He bade us look at them carefully, and we did so as we flew past and waved to them. Each little child had some physical defect, some being crippled that they were in plaster shoes and iron supports.

"There's a wonderful Repair Shop," said the doctor. "Making over boys

and girls who look ready for the scrap heap, into healthy happy children. There's nothing in all Canada that deserves more appreciation and support than looking after the human engine along the road of life.

We medical men think it a privilege to help along these little ones, and fill them up with health and strength, for without it, life's journey is but a series of flat tires and missing cylinders." We observed that our driver wore in his button hole the emblem of the Red Cross, the society that stands for the prevention of disease and the mitigation of suffering.

## Noted Comedy-Success to Open Canadian Chautauqua

SCENE FROM "BROKEN DISHES"

"Broken Dishes," the popular Broadway comedy by Martin Flavin, which will be presented at the coming Canadian Chautauqua here, seems to strike a responsive chord in the heart of everyone. Pa Bumpstead, the central figure in the play, is one of the most lovable characters to reach the stage in a decade. For twenty years Pa has been as meek as a lamb in his own home, but events transpire which cause him to pluck up his courage and roar like a lion, to the intense surprise of the Bumpstead family.

"Broken Dishes" is a very human comedy, filled with laughter, romance and pathos. It will be presented here by the well-known Martin Erwin Players of Canada.

## HOME CANNING FULLY DESCRIBED IN BOOKLET

Bank of Montreal Issues Valuable Handbook for Thrifty Housewives

Did you know that meats and vegetables can now be canned and put away for winter use just as successfully as fruit? This is one of the most useful and remarkable discoveries of recent years, and the process is fully described in a handbook covering the whole field of home canning now being issued for free distribution by the Bank of Montreal.

In recent years the Bank has issued a whole series of handbooks for farmers. The latest booklet, entitled "Home Canning," is addressed particularly to housewives on the farm, and should help materially not only to solve the problems of canning, but to widen its range and add to the prosperity and health of rural families.

Few people realize, perhaps, the progress that has been made in recent years in storing away the products of the summer season for use in winter. There are those who can remember when jam was the only preserve. Then came the preservation of whole fruit in syrup. It was only four years before the war when methods were discovered for the canning of non-acid vegetables and meats, and now there is hardly any perishable food which cannot be stored away in times of plenty for use when need arises.

The question as to whether or not canned products are healthful naturally arises. This booklet dissipates any doubt there may be on that matter. It shows not only how the essential vitamins and other healthful qualities may be retained in preserved foods, but how they may be made to retain their original freshness and thus contribute materially in the preservation of health through diet.

Everybody knows nowadays that a plentiful supply of fruit and vegetables is necessary to a healthy diet. Farm folks, however, have no quick and easy access all the year round to fresh products. They usually either have to go without fruit and vegetables in winter, which makes for monotony of diet and is expensive from the health standpoint, or they

(Concluded on Page 7)

### HERD LAWS WILL KILL MIXED FARMING

In various parts of agricultural Al-  
berta there is a spasmodic agitation  
for a tight and fast herd law, doing  
away with all fences excepting those  
enclosing pastures.

In such a rich raised farming coun-  
try as Alberta, such a law would make  
mixed farming almost impossible. We  
must have fences about our crops and  
fences about our stubble fields, to  
hold stock on their own feeding places.

How many months in the year do  
our horses and surplus cattle live on  
the stubble fields and straw stacks?  
How could this be done without line

fences?

Fully half of Alberta farms are a  
half section or less and practically  
all of these farms support more or  
less livestock. More livestock would  
mean more profitable farming without  
a doubt.

So, instead of removing or reducing  
our fences, it would be wiser to build  
more fences, cut up our farms into  
smaller fields where stock could be  
changed from field to field, as neces-  
sary, during cropping and harvest  
seasons.

In some older settlements, where  
small farming plots prevail, and where  
nothing in livestock is kept except  
perhaps one team and one cow, a herd  
law may be possible. But not in a  
vast mixed farming area such as Al-  
berta.—Bert Huffman in Market Ex-  
aminer.

### IN YOU GO AGAIN!

"Last Saturday night in that 'No  
Man's Land' which stretches along  
the Macleod trail south of town, there  
was enacted one of those emotional  
scenes which everyone but the chief  
actors finds so enjoyable.

"It seems that three red-haired  
Southerners, ignoring the detour signs,  
instead, on their own judgement, de-  
cided to drive their car across the  
bog, when they dropped solidly to the  
hubs and stuck, they were obliged to  
call for assistance. Two of our stal-  
wart neighbors, with two strong and  
sinevy teams responded to the cry,  
and after considerable difficulty, hauled  
them out onto dry land. It took time,  
and more or less expert manipulation.  
It was altogether a dirty job and per-  
formed outside union hours. So when  
the red-headed men said 'thanks a  
lot boys,' and presented a one dollar  
tip, the rescuers proceeded to show  
why a two-man, four-horse contract

should be worth more than a dollar.  
However, they were met with a flat  
refusal to pay more, so while the re-  
partee was going strong, one of the  
rescue party slipped away into the  
night, hooked up behind the car and  
dropped it back with a blop into the  
hole it had been pulled out of. It was  
a fitting revenge.

"There ensued some of this language  
you hear old-timers talk about, rich,  
red and searing. But the salvagers  
laughed callously, and sat down to  
rest.

"Now what could a marooned man,  
or three marooned men do under such  
circumstances. They positively could  
not present another petition. They  
could not ask to be pulled out again.  
So while their avengers sat and  
smoked, the three red-haired men tol-  
led back and forth with gravel. They  
carried it in their caps. Back and  
forth they went, back and forth. They  
packed it under the wheels and wedged  
it in. Till finally after much tribula-  
out on her own steam. Then with dire  
and dreadful threats of what was go-  
ing to happen our neighbors, not only  
in the next world, but also in this,  
they drove into the night.

"Which side won out or was it a  
tie? Which had the most fun?"—The  
High River Times.

Motoring Mike says: "Not all the  
wooden-headed drivers are found on  
golf courses."

Irate Motorist: Some of you pedes-  
trians walk as if you owned the streets  
Angry Pedestrian: Yes, and some of  
you motorists drive around just as if  
you owned the car.

### HOME CANNING FULLY DESCRIBED IN BOOKLET

(Continued from page 6)

have to buy fresh and canned fruits  
and vegetables, which generally re-  
sults in going without. The better way,  
as described in this booklet, is to pro-  
vide a supply of home-grown, stored,  
and canned products, which yields  
good returns in money and in family  
health, and incidentally proves mighty  
convenient, since ready-to-serve food  
is always on hand.

To show what a wide range of food  
products may now be stored, the fol-  
lowing are some to which the direc-  
tions in this booklet apply: Tomatoes,  
string beans, peas, corn, greens, as-  
paragus, carrots, beets, rhubarb, ber-  
ries, cherries, plums, peaches, pears,  
chicken, beef, pork, soup and fish. The  
containers to be used are glass jars and  
tin cans, the latter sealed without  
solder, thus being free from the dan-  
ger of poison, which is described as "a

hangover from the days when soldered  
cans were used."

There are directions for both cold  
packs and hot packs, and also not  
only for the ordinary methods of pro-  
cessing by heat, but also for the use  
of that extremely valuable little in-  
vention, the steam pressure cooker,  
which is especially helpful in the can-  
ning of meat and vegetables and is  
useful all the time for cooking.

Summing up, this booklet shows how  
canning can give summer food in the  
winter; how the fresh-meat-in-hot-  
weather problem can be solved; how  
food that would otherwise be wasted  
can be saved; how feed can be saved  
by killing and canning chickens, pigs,  
and calves when they are ready; how  
the housewife may always have at  
hand food for unexpected company or  
for busy days; and how the food bills  
may be reduced.

Free copies of the booklet may be  
obtained at the local branch of the  
Bank of Montreal.

## 24 Hours Ends COLDS

You can send the soothing vapor of the pine woods, to the cause of your cold by inhaling Catarrhozone.

Little drops of healing balsams are distributed through the whole breathing apparatus in two seconds.

Like a miracle, that's how Catarrhozone works in bronchitis, catarrh, colds and irritable throat. You simply breathe its healing, fragrant vapor, and every trace of congestion and disease flees as before fire.

### Catarrhozone A Ten-Minute Relief!

No trace of the disease remains after Catarrhozone is used—no more matter to clog the nostrils—no more headache and buzzing ears. Two months' treatment (guaranteed), price \$1.00; smaller size, 50c, at all dealers.

### WORLD HAPPENINGS BRIEFLY TOLD

Sale of the Crown jewels of the Ottoman empire, valued at \$300,000,000 was forecast to raise money to relieve Turkey's financial crisis.

A movement is under way to make the Watertown, N.Y., airport an official port of entry for Canada. At present pilots must fly to Malone to obtain clearance papers.

All school uniforms throughout China must hereafter be made of native cloth in order to encourage home industry, according to a circular order of the Ministry of Education.

A protocol putting into effect the Young Plan has been signed at the French foreign office by Premier Briand, and the foreign ministers of Great Britain, Italy and Belgium.

Captain C. D. Barnard, pilot of the 'plane in which the Duchess of Bedford flew to Capetown, South Africa, and return, is planning to fly around the world in 30 days.

The Montreal Star says on good authority that a representative British, Canadian and United States group is negotiating to purchase Labrador for \$100,000,000. The proposal will be submitted shortly.

An order-in-council issued by the Department of Agriculture, under the authority of the animal contagious diseases act, prohibits the importation into Canada of parrots, parakeets, cockatoos, macaws, lorries, and love birds.

Installation of radio-beacons to facilitate night flying is expected at Forest, Manitoba; Regina, Saskatchewan; Morse and Bassano, Alberta, according to an announcement made by Inspector D. McLean, of the Civil Aviation branch. With the installation of these beacons night flying under all weather conditions will be possible.

### Five Powers Sign Reparations Plan

#### Commission Disappears and World Bank Will Soon Be In Action

The Young plan for payment of reparations, reducing Germany's obligations for damages caused during the world war from something like \$25,000,000,000 to about \$9,000,000,000, has gone into effect.

A protocol registering the decision of The Hague conference, which adopted the plan January 2, was signed by the ambassadors of Great Britain, France, Belgium, Italy and the French Minister of Foreign Affairs, after a tea served by the French Foreign Minister, Aristide Briand.

The first consequence of this act, which modifies for a second time the reparations machinery provided by the Versailles treaty, will be the disappearance of the reparations commission which, in co-operation with other bodies, has taken charge of payments under the Dawes plan.

The second will be the beginning of functioning by the bank for international settlement at Basel, Switzerland.

The third will be the issuance of \$300,000,000 in reparations bonds, two-thirds of that going to creditor nations and the other third to Germany for internal requirements.

### PALPITATION Throbbing of Heart After the "Flu"

Mrs. J. Cunningham, Sault Ste. Marie, Ont., writes:—"Last February I had a severe attack of influenza which left me with palpitation and throbbing of the heart.

"I felt very weak and tired so began to take

and used about six boxes and have found them help me a great deal, and am very thankful for having found such a good medicine."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

#### Business Is Growing

Deep-sea arrivals at the Port of New Westminster during March numbered 23 vessels compared with 17 in March, 1929. During the first three months of the year 60 deep-sea vessels with a gross tonnage of 343,453 registered inwards at New Westminster compared with 48 vessels of a gross tonnage of 266,017 during the similar quarter of 1929.

Persian Balm preserves and enhances women's natural heritage of beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisite in texture. Delightful to use. Smooth and velvety, it imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

#### Poultry Going To England

A trio of Brandon birds, having high egg production records, have been shipped to Ottawa to be trained and fitted for upholding Manitoba's reputation for high production poultry at the Crystal Palace, Sydenham, England, when the fourth world's poultry congress assembles poultry leaders from all parts of the world next July.

#### Heal the Sprain with Minard's.

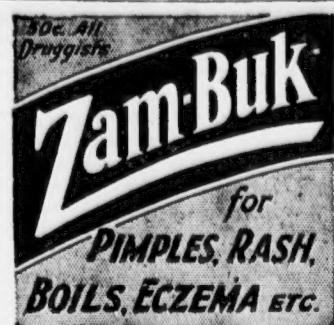

##### Vancouver Port Busy

Commercial shipping entering the Port of Vancouver during March showed marked activity, the net tonnage being about a million. The movement showed 1,909 arrivals with a tonnage of 966,288. Deep sea arrivals totalled 106, with a net tonnage of 403,856.

For a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

At a rough estimate the animals in the London Zoo represent a total value of about \$175,000, the Indian rhinoceros being one of the most valuable, costing more than \$5,000.

### SUNDAY SCHOOL LESSON

MAY 25

#### JESUS DESCRIBES THE FUTURE OF THE KINGDOM

Golden Text: "Take ye heed, watch and pray; for ye know not when the time is."—Mark 13.33.

Lesson: Matthew 24.1 to 25.13.

Devotional Reading: Isaiah 55.1-3, 6-8.

#### Explanations and Comments

The Parable Of the Wise and Foolish Virgins, 25.7-13.—The Kingdom of Heaven Jesus likened to ten virgins who went forth with their lamps to meet the bridegroom. Five of them were wise (prudent), and carried oil in their oil vessels, but five were foolish (imprudent), and took no extra supply of oil.

While the bridegroom tarried they all slept. There is no hint of reproach in this statement: the bridegroom might tarry a long time. Midnight came, and the approach of the bridegroom was announced. All the virgins arose and trimmed their lamps preparatory to going forth to meet him. The foolish ones then found their lamps were going out, and begged the wise ones to share with them their oil. But the wise virgins refused lest there might not be enough for them all, and counseled them to go out and buy oil.

While the foolish virgins went forth to buy their oil the bridegroom came; those that were ready went in with him to the marriage feast, and the door was shut.

A little later the foolish virgins arrived and begged to have the door opened. "Verily I say unto you, I know you not," was the only answer they received.

Watch, therefore, for ye know not the day nor the hour. Be not found unprepared. "It is not enough to have a lively zeal for a while; we must have, in addition, a perseverance that never tires."—Calvin.

#### Two Tested Recipes For Salad Dressings

Now that salads are the order of the day, really good recipes for salad dressings will be welcomed. A salad is often made or marred by the piquancy of the dressing used, so that tested recipes are very desirable. Since some prefer an uncooked dressing and others a cooked dressing, we give two recipes, both of which we know will please.

##### SALAD DRESSING (Uncooked)

Two eggs beaten until light; ½ teaspoon salt; ½ teaspoon mustard; ½ can Eagle Brand Condensed Milk; ½ cup vinegar. Beat the first four ingredients vigorously for a few minutes add the vinegar, stir well and set aside for a few hours to thicken. Excellent for fruit or vegetable salad. Will keep for weeks. For Russian dressing add Chili sauce to taste.

##### SALAD DRESSING (Cooked)

Half a tablespoon salt; 1 teaspoon mustard; 1 tablespoon flour; 1 tablespoon butter; ½ cup Eagle Brand Condensed Milk; ½ cup water; ½ cup vinegar; 1 egg. Mix dry ingredients, add slightly beaten egg, butter, milk, water and vinegar. Cook until thickened. Strain and cool. Whipped Borden's St. Charles Evaporated Milk, or cream, may be added before serving if desired. Yield, 1 cupful.

Could Hardly Live For Asthma, writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

She—"Now that we're engaged, dear, you'll give me a ring, won't you?"  
He—"Yes, certainly, darling. Er—what's your number?"

#### Campers Carry Minard's.

"Did your girl friend enjoy the art exhibit?"  
"No, she couldn't find a mirror in the whole gallery."

Why suffer needlessly? Douglas' Egyptian Liniment brings quick, sure relief to scald feet, soft corns and warts. Relieves inflammation. Removes proud flesh.

### A Growing Industry

#### Production From Inland Fisheries In Manitoba Shows Great Gain

While agriculture, the basic industry of Manitoba, together with manufacturing, mining, and other industries has advanced substantially in the province in recent years, the production from the inland fisheries has probably shown the greatest gain. In the past five years the fisheries production has increased more than 100 per cent. In 1924 the market value of the fish caught in Lake Winnipeg, Manitoba, Winnipegosis and other lakes was \$1,232,000, while last year it was \$2,634,000. In 1929 the commercial fishermen of the province caught 33,000,000 pounds of fish, a record for Manitoba, with a market value of \$2,634,000.

### PEOPLE "ALL NERVES"

#### What To Do If You Find Yourself In This Condition

The sort of thing that specialists call nervous debility is the run-down condition caused by over-work and household worries. The sufferers find themselves tired, low-spirited and unable to keep their mind on anything. Any sudden noise startles and sets the heart palpitating violently. They cannot sleep well at night; their hands tremble and legs seem unable to support them. Such a condition is indeed pitiable.

Doctoring the nerves with sedatives is a terrible mistake. The only real nerve tonic is a supply of good red blood. Therefore the treatment for nervousness and run-down health is Dr. Williams' Pink Pills, which promptly build up and enrich the blood. The revived appetite, the strengthened nerves, improved spirits and new strength which come after a course of these pills will delight every sufferer.

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"If, as you admit, you were three miles away digging potatoes when this man was arrested for speeding, how can you testify that the car was going at the most only 20 miles an hour?"

"Jedge, Ah used to own that car!"

#### Use Minard's for Burns.

Children of London recently attended a lecture on the home life of ancient Egypt and were shown balls and rattles which amused Egyptian babies of 2000 B.C.

## Summer COLDS

Almost everybody knows how Aspirin tablets break up a cold—but why not prevent it? Take a tablet or two when you first feel the cold coming on. Spare yourself the discomfort of a summer cold. Read the proven directions in every package for headaches, pain, etc.

### A Lucky Catch

#### Sentry Receives \$20,000 For Saving Life Of Prince At Belgrade

One of King's Alexander's gigantic guardsmen recently was given an indefinite leave of absence after receiving a reward of 100,000 dinars (nearly \$20,000), for having quite inadvertently saved the life of the 2-year-old Prince Tomislav, the second son of the King.

The Prince was playing in the apartments of his mother, Queen Marie, on the second floor of the palace, at Belgrade, when suddenly he fell from a window. The sentry, who was passing at the moment, received the full weight of the child on his shoulders. The Prince clutched the sentry around the neck and slid to the ground unhurt, but the burly guardsman was knocked unconscious and crumpled to the ground.

To go forward is important; to go straight is more important.

### OPEN SORES HEAL IN QUICKEST TIME KNOWN

### CHAPTER XIII.—Continued

"Oh, Grandma! You might have made him angry."

"Not Gam Garfield. He likes to make believe he's stern, but he's real good-natured underneath. He laughed. I guess he forgot he was a lawyer with an important case. And then he sat right down where you are, child, and said: 'It's you who ought to be spanked, Grandma Davis. You charged my client ten dollars for a string o' beads that's worth about ten cents.'"

"Ten dollars!" gasped Charmian. "What an idea! But you did charge too much, Grandma, and—"

"I never heard there was a law to keep a-body from getting as much as he could in a trade," interrupted the old lady. "I said as much to Gam,

and he had to admit that the law was on my side—considering. And I told him, too, that if Edgar Purdie said he paid ten dollars for those beads, why he was a liar on top of all his other sins. I was real indignant."

Troubled though she was, Charmian couldn't suppress a laugh at the picture Grandma's words brought up. "I guess he saw I was kind of riled," went on the old lady, "because he said, 'Don't you worry, Grandma. I won't let you get into any trouble if I have to commit perjury myself to prevent it; but what did the deacon pay for those darn beads?'"

"Did you tell him?" asked Charmian breathlessly.

"I did; but not till I'd asked if he was making a social call or one in the interest of his client. He grinned and said, 'You ought to have been a lawyer yourself, Grandma Davis; but I'm just dropping in to pass the time o' day with an old friend.' So I told him the whole story, Charmian. Honestly, child, I thought he'd have hysterics. There wasn't a shred of dignified lawyer left in him when I got through."

"But what's he going to do?"

"It don't make a mite o' difference to me what he does, so long as we're not dragged in; and we won't be, or I don't know Gam. He said, confidentially, that he thought when the deacon cooled off a little, and he pointed out the big expense of a law suit, that it would all be settled out of court. Just now Edgar's mad clean through. He says Luella's the only woman he ever proposed to that refused him, and claims that she led him on something scandalous."

"Well, dearie, maybe you'd better get us some dinner. It's been an exciting morning and I feel all gone. On top of everything else there was a fearful cat fight in Lizzie Baker's yard. I could hear the yowls as loud as if they were in this room. They'd be at it now if George K. Knowles hadn't come along and turned Lizzie's hose on 'em. And there are folks who say that nothing happens in Wickfield!"

Charmian laughed as she went toward the kitchen, glad there was enough excitement on hand to keep Grandma from asking too many questions about her ride with Jim; but as they were finishing their meal the old lady queried suddenly: "Did you enjoy your ride? And did

you get my catalogue from Emmy?"

"Oh, dear!" cried Charmian, "I left it in the car."

"It's no great matter," responded Grandma comfortably. "If Jimmy finds it he'll bring it 'round to-night. Like as not he'll be glad of an excuse to come. Did Emmy say what she was ordering?"

"A hat," smiled Charmian. She's not going to be outdone by Clara Darling."

"Do tell!" ejaculated Grandma. "Did she show you the picture, dearie? There were some awful pretty hats on page fifteen. What color will it be? Green doesn't go well with most of Emmy's things."

Charmian laughed.

"It's possible, you know, to buy some other color, even by mail. I didn't see the picture, Grandma. It was Jim who went in, and Emmy asked his advice about it."

"Then he can show me which one it is when he brings the catalogue. Emmy's not liable to be extravagant, but it does seem risky getting a hat clear from Chicago. It might get mashed in the mail, and then where'd she be? Maybe that's Jimmy now. There's an auto stopping. If 'tis, you call him in, dearie, so he can show me—"

"That you, Jim?" called Charmian, half rising as the front door opened. "Come in a moment. Grandma wants you."

Jim, who had eaten hastily and was on his way back to the bank, obeyed willingly enough. He had the bulky catalogue under his arm, and though he smiled at Grandma, his eyes shifted to Charmian, as if to discover if she looked more cheerful than when he left her.

"You sit down," commanded Grandma. "I guess George K. can run the bank without you for ten minutes. Draw up a chair. I want you should show me the hat that Emmy Bascomb's been fool enough to order without first seeing the quality."

"Good thunder!" objected Jim, "this book is three hundred and fifty pages thick! How'm I to find—"

"The hats begin on page fifteen," broke in Grandma. "They look real pretty in the pictures; but I've never seen but one mall order hat, and except for making a good deal of commotion around town—"

"Grandma," Charmian interrupted sternly, "I've got a notion that Jim is sick and tired of hearing about

that hat. Let him alone. He's got a right to admire a green hat if he wants to. The truth is, I liked it myself!"

"You did!" gasped Grandma, astonished; while Jimmy laughed, the first real laugh of the day—for him. For a moment his eyes met Charmian's with their old twinkle, then returned to the book, and he said dubiously:

"It must be this one. I remember it kind of hung down one side, and had a red rose on the other."

"Read what it says, sonny. I haven't got my glasses."

Jim obeyed, reading with mock solemnity: "A dressy model with soft, girlish lines that you will simply adore. The brim is of two colors of dainty lace-patterned straw. Colors: black with a red rose; meadow pink with sand; gobelin blue with crab apple. Price only one-fifty-nine. Shipping weight two pounds." That sounds pretty swell, Grandma, doesn't it? Emmy was hovering between the black with the red rose, and the blue with the crab apples or carrots. I gave her a shove toward the blue, and ran, or she'd still be asking my assistance. Now I must skip, or George K. will think I've absconded with his interest money."

Again his eyes sought Charmian's, but at the mention of interest, her face hardened, and she turned away. A moment later the whirl of an engine told her that Jim had gone, and Grandma said, lifting her eyes from the gayly colored page: "Seems as if that hat would be a little wide in the brim for Emmy; but you never can tell about a hat until you try it on. I think she's running a terrible risk, though they do say, 'money refunded if not satisfactory.' Still, they might make a fuss if she sent it back. Business men are hard-hearted to deal with—that is, some of 'em are, though Father always said there were exceptions."

"I'd like to find one, then," said Charmian; but Grandma, still absorbed in Emmy's purchase, didn't notice the sudden bitterness in the girl's voice.

### CHAPTER XIV.

It was with a very genuine glow of happiness that Charmian learned that the school board had given her "District Four." Some years had passed since she graduated from the State Normal School—years when it seemed best for her to stay with Grandma; but as it became increasingly difficult to meet expenses and keep the old house in repair, the girl realized that something must be

## WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver.

Headache, Dizziness and Biliousness surely follow. You must stimulate your lazy liver, start the bile flowing with Carter's Little Liver Pills.

They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following, on the contrary a good tonic. All Druggists 25c and 75c red pkg.

done, and to get the school only a mile from her own door was a vast relief.

(To Be Continued.)

### A Brave Little Traveller

Little Jean Baxter recently appeared on the White Star liner "Albertic," bound for Halifax, with the following label attached to her coat: "My age is 3 years. My mother is dead, and I am going out to my daddy in Saskatoon. I am travelling alone, so please be good to me."

## "So Skinny Shamed In Bathing Suit. Gained 15 Lbs."

"Gained 15 lbs. taking Ironized Yeast. Was always ashamed to wear bathing suit but now I can and not feel too skinny." — Eulah Lanningham.

Thousands write of 5 to 15 lbs. gained in 3 weeks with Ironized Yeast. Bony limbs round out. Ugly hollows fill in. Blemished skin gets clear and rosy like magic. Nervousness, indigestion, constipation disappear overnight. Sound sleep. New health and pep from very first day.

Two great tonics in one — special weight-building Malt Yeast and strengthening Iron. Pleasant little tablets. Far stronger than unmedicated yeast. Results in 1/2 time.

So quit being ashamed of "skinniness," sallow skin. Get Ironized Yeast from druggist today. Feel great tomorrow. Money back from manufacturer if not delighted with quick results.

A composer has written a song for pedestrians. But it will be a long time before composers nowadays can hope to excel Chopin's famous funeral piece.

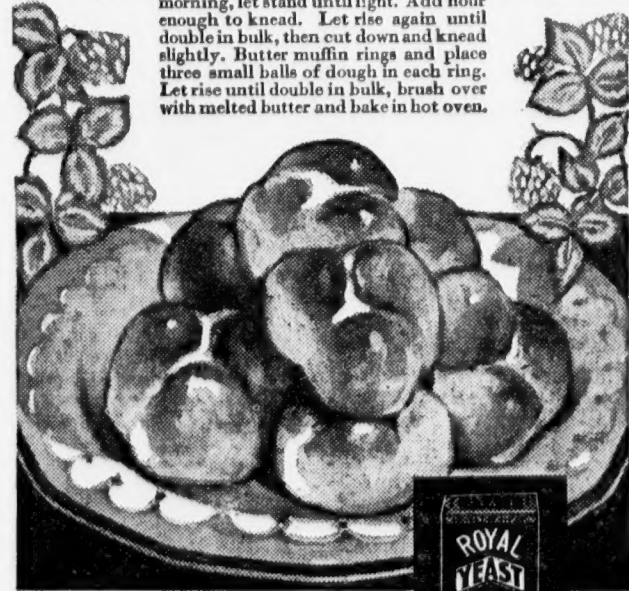

## Clover Leaf Rolls made with ROYAL YEAST CAKES are a Delightful Change

Try this recipe:

- |  |                         |
|--|-------------------------|
| 1 Royal Yeast Cake dissolved in one-half cup lukewarm water. | 1 tablespoon sugar      |
| 1 teaspoon salt  | 1 1/2 cups flour        |
|  | 1 1/2 cups scalded milk |
|  | 1/2 cup butter          |

Pour the scalded milk over the sugar, salt and butter. When cooled to lukewarm add the dissolved yeast and one and one-half cups flour. Allow to stand well covered in moderately warm place over night, or, if sponge is set in morning, let stand until light.

Add flour enough to knead. Let rise again until double in bulk, then cut down and knead slightly. Butter muffin rings and place three small balls of dough in each ring. Let rise until double in bulk, brush over with melted butter and bake in hot oven.

Bread is one of the most nourishing of foods. It can be made more interesting, however, by occasionally varying the form of serving it.

If you bake at home, the Royal Yeast Bake Book will provide you with many practical tested recipes for all kinds of home-made breads. It will be mailed—free—on request.

## READ OF A CASE LIKE HER OWN

Decided to take Lydia E. Pinkham's Vegetable Compound

Moncton, New Brunswick—"Before my last baby was born I was very weak, nervous and discouraged. I saw an advertisement in the paper about a woman who had been like me so I bought a bottle of Lydia E. Pinkham's Vegetable Compound. I took three bottles and it carried me safely through that critical time. I have three children to care for and I feel well and strong. I have told two other women about your medicine."—Mrs. GUS ARSENAULT, 82 Albert Street, Moncton, New Brunswick.

## PREMIER BROWNLEE ADDRESSES MEETING

(Continued from front page)

proper administration of the resources now in possession of the Province. On the other hand, the past administration of the Government has been an enviable one and much good has been accomplished during the past four years and if the people considered that his (the Brownlee) Government was capable of continuing for the next term they would return the U.F.A. to power on election day. Thus would they give their assent to the administration of the natural resources of the province by the present government.

Mr. Brownlee also outlined the increase in the public debt, which is approximately \$100,000,000 and showed why this debt had increased. He stated that the population was greater and that the public debt was not any greater per capita than it was when the Brownlee government first took office. Mr. Brownlee went all through the various departments of the Government showing where they had not increased the debt, but decreased the debt in many departments and that in no way could the Government decrease the expenditure of moneys in the Province unless the policy of the Government in building roads, establishing Old Age Pensions, hospitals, etc., was dropped. The government had not spent one cent lavishly, the Premier continued, and no opposition member or any other person could say with proof that they have done so. Mr. Brownlee concluded his address

## TENDERS FOR SCHOOL HOUSE

SEALED TENDERS will be received by the Board of Trustees of The Ardlebark School District No. 4455, at the office of the Secretary-Treasurer up to noon on Saturday, May 24th, 1930, for the erection of a one-roomed Frame School Building after Plan Number 63-C-797.

Plans and specifications may be obtained from the Secretary-Treasurer, or the Crown Lumber Co. Ltd., Carbon, Alberta, on payment of a deposit of \$5.00. Plans must be returned within 24 hours, and deposit will then be refunded. A marked cheque for five per cent of the amount of tender should be enclosed with each tender as a guarantee that same is bona fide. The lowest or any tender will not necessarily be accepted.

DAVID POFFENROTH,  
Secretary-Treasurer

P. O. Grainger, Alberta.  
Nearest Station, Grainger, Alberta, 4 miles distant.

and answered a few questions that were asked by the audience.

The meeting closed with the singing of the National Anthem and immediately Mr. Brownlee left for Bassano, where he was to address a meeting that night.

## GRAND FORKS SPORT NEWS

The baseball match played at the Three Hills Creek on Sunday between Grand Forks and Carbon, was won by the former team, the score being 15-6. C. Anderson pitched an excellent game for the Athletics and was ably supported by the rest of the team, especially R. Garrett on first base.

The following is the line-up of the two teams:

Grand Forks—Pim, P. Fuller, M.

Anderson, C. Anderson, R. Garrett, C. Thompson, Johnson, A. Hudson and T. King.

Carbon—J. Spence, B. Ramsay, N. McClure, L. Halstead, W. Braden, L. Trepanier, G. Ramsay, W. Reid and A. Poxon.

Following the above match a soft ball game was played between teams representing the above clubs. This game was also won by the Grand Forks team after some extraordinary playing in the last inning, which netted them two runs, resulting in a win for the Athletics 3-2.

It was quite a red letter day for the Grand Forks for besides winning the two games, a large number of new members joined the club and paid their fees.
